Executive Director – Procurement,
Capacit'e Infraprojects Ltd

out some challenges, "We have observed a consistent uptick in the quality, technology integration, and safety features of equipment offered by leading manufacturers. Rental players, too, have become more organised and responsive. However, in high-density urban construction such as ours, downtime tolerance is extremely low. Timely aftermarket support, rapid servicing, and availability of spare parts remain key determinants of operational continuity. We appreciate the improvements made but believe there is still room to
